# Sterile Water, USP

## For Injection

DIN 00715697

### *Veterinary Use Only*

**ACTIVE INGREDIENT:**

Water for Injection ..... 100% v/v  
Non-pyrogenic

**INDICATIONS:**

Sterile Water USP is indicated for use as a sterile solvent or diluent for injectable solutions in such species as horses, cattle, swine, sheep, goats, dogs, cats, etc.

**DIRECTIONS:**

Before piercing, cleanse stopper with suitable antiseptic. Using aseptic technique, withdraw amount required for use as directed by a veterinarian, in solutions for administration by intramuscular, intravenous, subcutaneous or intraperitoneal route.

**CAUTION:**

Not suitable for parenteral use without first having been made approximately isotonic by addition of a suitable solute. Use only if clear. Contains no preservatives. Solutions made with this water should be used promptly or sterilized with adequate precautions for maintaining sterility. Discard unused portion.

**STORAGE:** Keep from freezing.
