SECTION 7 – PREVENTATIVE MEASURES		
PERSONAL PROTECTIVE EQUIPMENT:		
GLOVES (Specify): Chemical resistant gloves.	RESPIRATOR (Specify): Use approved mask or approved respirator if exposed to vapours or mist.	EYES (Specify): Chemical safety glasses.
FOOTWEAR(Specify): Boots as appropriate.	CLOTHING (Specify): Plastic apron, as appropriate.	OTHER (Specify): Sleeves as appropriate.
** An eye wash and safety shower should be nearby and ready for use.		
ENGINEERING CONTROLS: Engineering control methods to reduce hazardous exposures are preferred. Methods include mechanical ventilation (dilution or local exhaust), process or personnel enclosure, control of process conditions, and process modifications. Personal protective equipment may also be used.		
LEAK AND SPILL PROCEDURES: Before dealing with spillage take necessary protective measures, inform others to keep at a safe distance and for flammable materials shut off all possible sources of ignition. Transfer carefully into approved waste containers and arrange for removal by disposal company. Wash site of spillage thoroughly with water and detergent.		
WASTE DISPOSAL: Follow all federal, provincial and local regulations for disposal. Use only licensed disposal and waste hauling companies. Disposal of small amounts of spilled material may be handled as described under Leak/Spill Clean-up. Large spills must be handled by qualified disposal companies.		
STORAGE AND HANDLING REQUIREMENTS: Store in suitable labelled containers, Keep containers tightly closed when not in use and when empty. Protect from damage.		
HANDLING PROCEDURES: Follow routine safe handling procedures.		
SPECIAL PRECAUTIONS: Containers, even those that have been emptied, will retain product residue and vapours. Always obey hazard warnings and handle empty containers as if they are full.		

SECTION 8 – FIRST AID MEASURES

Eyes:	Flush the contaminated eye(s) for at least 15 minutes with lukewarm running water, holding the eyelids open. Take care not to rinse contaminated water into the non-affected eye. Always seek medical attention for accidents involving the eyes.
Skin:	Flush the contact area with lukewarm running water for at least 15 minutes. Remove contaminated clothing, taking care not to spread the chemical. If contamination is extensive, remove clothing under running water. Discard or decontaminate clothing before reuse. Unless contact has been slight, seek medical attention. Seek medical attention if irritation persists.
Ingestion:	Never give anything by mouth if victim is rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Dilute by drinking water. Induce vomiting. Seek medical attention.
Inhalation:	Take proper precautions to ensure your own safety before attempting rescue. Remove source of contamination or move victim to fresh air. If breathing has stopped trained personnel should begin artificial respiration, or if the heart has stopped, cardiopulmonary resuscitation (CPR) immediately. Seek medical attention.
